

Super-Cut Bandage Scissors

Super-Cut Scissors represent an advance in scissor technology. Created from the finest surgical steels with master craftsmanship, the upper blade has a razor-sharp edge which gives the scissors a smooth and effective cutting action. However, they are not recommended for fiberglass or plaster splints. Additional benefits:

- Less hand fatigue for the surgeon and less trauma for the patient.
- Retain their sharpness longer than ordinary scissors.
- Ring handles are black-coated for easy identification and are fully autoclavable.

Super-Cut Hi-Level Bandage Scissors

D 413 920 5-1/2" Angled Shanks
Delicate offset shanks and sharp Super-Cut edge provide better leverage. The fine knob slides easily under finger and toe bandages.

Super-Cut Lister Bandage Scissors with Large Finger Ring

D 414 040 8"
All the benefits of our Super-Cut Lister scissors plus an oversized finger ring, which helps relieve pressure on the third metacarpal.
